

Module - Heat Related Illness Avoidance, Recognition, and Treatment

Overview

Students will become familiar with symptoms, treatments and avoidance of heat related illnesses.

Target Audience: Line going firefighters

Time: Video 15 minutes, Exercise 15 minutes, Total 30 minutes

Exercise: The class will collaborate to come up with an answer to each scenario and the facilitator will input the answers into the interactive module and use the check function to verify the answers. Students are urged to use their IRPGs and the facilitator may use the mouseover functions to help answer the questions.

Facilitator Tasks

- Introduce the goal listed above.
- Play the video
- Conduct the student exercise below

Important Setup Notes!

This module will only run in Internet Explorer *only* if it is set as your default browser.

If this is not your default browser, open Internet Explorer, go to the menu bar at the top of your computer screen and select **TOOLS**, then go to **INTERNET OPTIONS** at the bottom of the popup screen. Select the **PROGRAMS** tab at the top of the **INTERNET OPTIONS** popup screen and **CHECK THE BOX** to make Internet Explorer the default browser, click **OK** and close Internet Explorer. **WEB VERSION INSTRUCTIONS**(disregard if you are using the DVD) After downloading the zipped file open the folder and highlight the **LCMS** folder and an **Extract all files** command

Facilitators Guide

should open up on the tool bar at the top of the screen. Click on the Extract command to start the unzipping process and save to a file location of your choice. After the zipped file has been extracted go into the LCMS folder that you just saved and find the INDEX icon. Double click the INDEX icon to start the module. If the program asks you about active x controls, or gives a warning, go ahead and allow all controls to run on your machine. To view the module full screen, press F11 when the browser appears, press F11 again to see the browser.

To play video use the “See the Video Full Screen” function, otherwise you may play two videos at the same time. If this happens, stop them both and use the “Video Full Screen” function. Rehearse this before the refresher starts.

Exercise: Answer the questions from the scenario as a class and use the mouseover functions located on the picture to help answer the questions.

Note about feedback/evaluations on this module.

This module was designed as a proof of concept for future modules in the hope of evolving toward a paperless fire refresher using current and emerging technology. The refresher team welcomes your comments and evaluations to provide a better product in the years ahead. This is your chance to make a contribution to that effort. Please take the 45 seconds to complete the evaluation at the end of the module, involve the class and take a consensus by hand vote on the questions. Use the link provided. Many thanks from the refresher team.
